## HOW YOUR PENSION GROWS OVER TIME

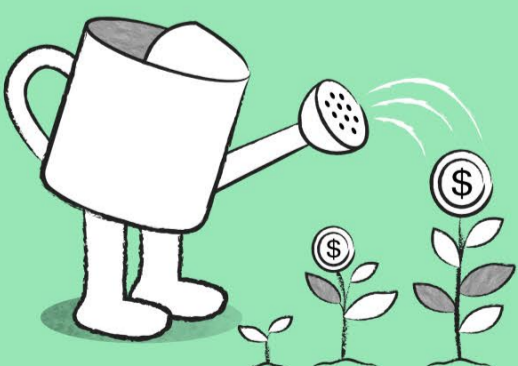

Every pension contribution is a seed and every smart investment choice helps it to grow. At Trustfund Pensions, we understand that your retirement savings represent years of dedication, sacrifice and vision for a dignified future. That's why we invest each contribution with purpose, discipline and care- nurturing your funds to grow steadily over time.

Behind the scenes, our investment professionals work with precision and insight, deploying funds across a diversified portfolio that balances safety with sustainable returns. From government securities and corporate bonds to equities and infrastructure investments, each asset class is carefully selected to deliver long-term stability and value. Our strategy is rooted in prudence, ensuring your funds are protected while consistently positioned for growth.

Our growth strategy is not about chasing quick gains or taking unnecessary risks; it's about the power of consistency, compounding and time. As your contributions accumulate, they earn returns and those returns, when reinvested, begin to generate even more. The result is a growing fund that strengthens quietly and confidently, year after year, until it's ready to support the retirement you've envisioned.

At Trustfund, we see your pension beyond a number, but rather the financial foundation for your independence, peace of mind and security in the years ahead.

**True wealth is built patiently. Let your pension grow quietly and powerfully through time and trust.**

**Your savings today, your strength tomorrow.**

# Hydration And Health – Why Water Is The Body’s Natural Superpower

Water is life’s quiet hero-simple, pure and essential to your well-being. Every cell in your body depends on it to function, repair and renew. Staying hydrated isn’t just about quenching thirst; but about fuelling focus, sustaining energy and supporting every heartbeat, every breath and thought.

The slightest dehydration can cloud your mood, reduce concentration and leave you feeling fatigued. The remedy is simple: drink water consistently throughout your day. Begin each morning with a glass before your coffee or tea, keep a bottle within reach at work and choose water over sugary alternatives whenever you can.

Think of hydration as a daily act of mindfulness — a small, steady commitment to balance and vitality. Because every sip restores, refreshes and revitalizes you from within.

“Water is your body’s most natural superpower, nurturing clarity, calm and lasting well-being.

# BREAKING NEWS

Pension news and updates

**NGX index rebalancing:** The Nigerian Exchange Limited has announced its Half-Year 2025 index review, effective July 1, 2025. The flagship NGX 30 Index saw NASCON Allied Industries and Unilever Nigeria admitted while Oando and Transnational Corporation exited. Core sectoral indices including NGX Banking, Insurance, Industrial, Consumer Goods and Oil & Gas recorded no constituent changes. Notable adjustments occurred in ethical indices, with Nestle and Cadbury admitted to the NGX Lotus Islamic Index, and five companies including Seplat Energy and Fidelity Bank added to the Afrinvest Dividend Yield Index.

**FG Launches Rev360 to Boost Tax Compliance and Revenue Collection:** The Federal Government has unveiled Rev360, a new digital tax administration platform aimed at improving tax compliance, enhancing transparency, and strengthening revenue collection. The initiative seeks to simplify taxpayer interactions while supporting broader fiscal reforms focused on digital transformation and efficient public sector operations. Officials say the platform will encourage voluntary compliance, boost investor confidence, and create a more business-friendly environment to support Nigeria's economic growth.

# Did You Know? Nigerians Abroad Send Home More Money Than Oil

Official remittances from Nigerians in the diaspora hit \$20.93 billion in 2024 - four times the value of foreign direct investment into the country. Let that sink in. While policymakers debate how to attract foreign investors, ordinary Nigerians hustling abroad are quietly doing the heavier lifting.

These inflows now average about 80% of the federal budget in value - and are several times larger than combined foreign direct investment and foreign aid flows. In other words, the Japa wave that many see as a brain drain is, financially speaking, one of Nigeria's biggest economic engines - and it's powered by everyday people, not oil wells.
